PROFESSIONAL SUMMARY

Frontend Developer with experience in building and maintaining responsive, high-performance websites and applications. Skilled in HTML, CSS, SCSS, JavaScript, TypeScript, and modern frameworks such as Angular. Strong background in SEO optimization, usability improvement, and client support. Recognized for analytical thinking, problem-solving, and cross-team collaboration.

Frontend Developer

Eventact company   2023 - present

- Fixed and enhanced internal web applications, transforming semi-functional tools into fully operational systems.
- Supported QA and testing before product releases and proposed interface improvements.
- Collaborated with clients in multiple languages to provide support, demos, and onboarding.
- Identified, classified (user error vs. system bug) and solved technical issues. Escalated unresolved bugs to backend developers.
- Developed, upgraded, and maintained company and client websites (more than 30 websites per year).
- Improved responsive design, website structure, and front-end performance (up to 20% less the loading speed.).
- Optimized website text, metadata, and schemas for SEO and accessibility; implemented advertising tags.
- Performed technical operations such as mail redirects, database backups, and basic server/pulls configurations.

Technologies: HTML, CSS, JavaScript, TypeScript, jQuery, .net, Angular, Bootstrap.

Project Manager

Rose Marketing Agency   2014 - 2022

- Led cross-functional teams across design, marketing, and development departments.
- Managed client projects from planning to delivery, ensuring deadlines, budgets, and KPIs were met.
- Directed website redesigns and landing page development, improving UX, SEO, and conversion rates.
- Managed 360° digital marketing campaigns for international clients.
- Collaborated closely with developers to ensure quality and functionality of web projects.
